GUIDELINES GOVERNING THE SERVING OF OFFICIALS OF THE  
NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (NASA)  
AS CONSULTANTS ON ADVISORY PANELS OF THE CENTRAL  
INTELLIGENCE AGENCY (CIA)

1. NASA will make available technically qualified officials to serve as consultants to the CIA, on panels to be known as CIA Advisory Panels, in the following categories of aerospace activity:
  - Manned Space Flight
  - Launch Vehicles
  - Launch and Test Facilities
  - Scientific and Technical Satellites
  - Lunar and Planetary Probes
  - Aeronautics
  - Advanced Research and Technology
  - Tracking, Data Acquisition, and Reduction
2. The number of NASA personnel assigned to each panel will vary from approximately two to seven, depending upon the need. Attendance of NASA members at panel meetings will be as regular as practicable, consistent with the demands of their NASA duties. Every effort will be made to maintain an individual membership continuity of at least two years.
3. Each panel will be chaired by a senior official of the CIA. Additional CIA members and a secretary may be added at the discretion of that Agency.
4. Meetings will be scheduled by the CIA normally not more often than approximately twice a year. As a general rule, meetings will be held at NASA Centers concerned with the technologies involved. As much advance notice as practicable will be given of the dates and place of each meeting. Arrangements for meetings will be initiated by CIA through NASA Headquarters (contact point: Office of Defense Affairs — Col. Floyd Sweet — Code 13, Extension 24707).
5. Panel meetings will normally not require more than two days of working sessions.

2.

6. The functions of the NASA panel members will be purely consultative and advisory in nature. They will not be expected to furnish or participate in formal analyses or evaluations of intelligence.
7. All reports, analyses, and evaluations stemming from panel activities will be prepared and submitted by CIA officials.
8. CIA will arrange the necessary clearances for NASA members.

INITIAL ASSIGNMENT OF NASA PERSONNEL  
TO CIA ADVISORY PANELS

1. Manned Space Flight

- From MSC
  - Dr. Robert R. Gilruth, Director
  - Mr. George M. Low, Deputy Director
  - Dr. Joseph F. Shea, Manager, Apollo Spacecraft Program Office
  - Mr. Maxime Faget, Asst. Director for Engineering & Dev.
  - Dr. Charles A. Berry, Chief of Center Medical Programs
  - Lt. Col. James A. McDivitt, Astronaut
- From MSFC
  - Mr. Francis L. Williams, Assistant to Director

2. Launch Vehicles

- From Lewis
  - Bruce Lundin, Associate Director, Development
  - David Gabriel, Centaur Project
  - Seymour Himmel, Agena Project
- From MSFC
  - Dr. Wernher von Braun, Director
  - Mr. Francis L. Williams, Assistant to Director
  - Mr. Billy A. Neighbors, Vehicle Development Group, Propulsion and Vehicle Engineering Laboratory
- From KSC
  - Lt. Col. Raymond L. Clark, Assistant Director for Support Operations

3. Launch and Test Facilities

- From MSC
  - Mr. Christopher C. Kraft, Asst. Director for Flight Operations
- From MSFC
  - Mr. Karl L. Heimburg, Director, Test Laboratory
- From KSC
  - Lt. Col. Rocco A. Petrone, Director, Plans, Programs and Resources
  - Lt. Col. Raymond L. Clark, Assistant Director for Support Operations
  - Mr. G. Merritt Preston, Deputy Director, Launch Operations

4. Scientific and Technical Satellites

- From GSFC
  - Dr. John Townsend, Asst. Director, Space Sciences & Satellite Applications
  - Mr. Daniel Mazur, Chief, Spacecraft Systems and Projects Division
